Aveda Pure-Fume

SINGULAR NOTES

Aroma

Aroma may be invisible but our hearts cannot ignore it. Response of body and mind is undeniable. With Aveda aromas, the air we breathe is alive with plant and flower essences – helping us thrive in every environment.

Pure essential oils distilled or extracted from a single plant species and infused into a base oil. You can safely apply them directly to skin and bath water, hair and scalp to moisturise and condition. Or infuse your personal space with pure natural aromas. Use them in an aroma diffuser to enhance your world with nature's own calming, balancing and refreshing aromas.
